\* The Bright App is an open source online directory that can be utilized by any website to link to the behavioral health data managed by WIM Tracking. A simple piece of copy and paste is inserted into a website and visitors can begin searching for a behavioral health provider. One dataset can fuel the resources found on hundreds of websites, made possible by your sponsorship.

\*\*The Bright App PDF directory will be made available for download at TheBrightApp.org and any other website that would like to host the print directory.

\*\*\*The WIM Datahub includes physicians, physician assistant, APRN, dentist, optometrist, podiatrist and chiropractor data. Through the WIM Datahub the users will be able to download all the provider data including behavioral health into reports and maps.

Sponsorships are for one calendar year starting at the date The Bright App goes live or the date the sponsor form is received (if submitting post launch).
